ENVIRONMENTAL POLICY

The company management has accepted its responsibility for environmentally friendly behaviour and declares the following commitments which express the company's approach to the environment.

1. To comply with all the relevant regulations of Environmental Law and other related provisions in the field of forestry and related activities that affect the work environment and the natural environment.
2. To continuously improve the company's environmental protection in the context of the changing external conditions; to create conditions for pollution prevention and to promote sustainable forest management.
3. To consider the economic viability of using the best available technology in forestry works to achieve the environmental objectives.
4. To consistently implement various cost-effective and preventive measures in the area of energy and raw material consumption, generation and utilisation of waste.
5. To incorporate the environmental aspects into marketing and supplier-customer relations.
6. To create the necessary financial resources to control the environmental impacts and to prevent emergencies.
7. To motivate employees to protect the environment, especially with respect to their job responsibilities.
8. We inform the interested parties as required by the legislation.

By its approach, the company management is committed to creating the conditions for fulfilling the Environmental Policy in the daily work of all of us.

All employees of the company are acquainted with the Environmental Policy.

Hodonín, 8.1. 2020
